

Services Update

With over 12 years experience in implementing Agresso based business solutions Integra Associates is the largest and most established independent Agresso consulting practice in the UK.

Integra works closely with all its clients to support business systems implementations that deliver real business benefits and high returns on investment.

Our objectives to deliver the highest quality of services with a strong empathy for our clients' complete business needs remain at the heart of Integra's own business development and service delivery.

We are able to achieve this by providing a wide range of experience and skills to assist with business process changes through to systems and user implementations. Integra maintain a strong team of highly experienced consultants to help you get the most out of your financial business systems.

Our wide ranging services are delivered with the type of flexibility that allows us to work in harmony with your own project teams.

So whether it's managing the project, using our specific skills to support your own team or delivering against defined terms of reference, we are confident we will add value to your project. Case studies are available to illustrate the how we have worked with our clients to realise successful projects as diverse as new implementations, technical upgrades, sophisticated integration projects or simply ensuring end users are retrained.

Industry Experience in:
Engineering
Financial & Insurance Services
Media
Utilities
Transport
Professional Services
Local & Central Government
Education
Health

Integra Associates is an independent consultancy specialising in implementing financial business solutions and is made up of qualified accountants and IT professionals.

Consultancy expertise and services from Integra include:

Business Consultancy

The foundations of any successful solution are effective business processes. Integra has the expertise to contribute to process improvement programmes that together with sound Agresso implementations create highly efficient total solutions.

Project Management

The planning, monitoring and managing of a project is vital to its success and Integra use their many years of management experience, of both internal and external projects, to manage clients' projects or specific assignments.

Agresso Application Consultancy

The independent and impartial focus of Integra's consulting team combined with our experienced background allows us to provide objective advice and practical support for our clients' implementations. Services are delivered flexibly to meet our clients' resourcing and timescale requirements and so ensuring they benefit by receiving best practice delivered in a cost effective way.

Financial Expertise

Many of our consultants are qualified accountants who bring a wealth of practical financial management experience.

Technical Consultancy

Agresso solutions provide a strong environment for growth and business change. But this requires effective technical management and support delivered in the appropriate timeframe to maintain the system integrity. Integra is able to provide such support with the reassurance that our clients benefit from a much wider technical knowledge base and experience of Agresso implementations.
